The **BIC** requires our community to register to minimize spamming and ensure comments, forum discussions, and the entities added to the **BIC** directory are relevant to the brain injury community. Survivors, caregivers and providers don't need to be overwhelmed by E-mails. Having a registered site helps prevent spammers from getting access to E-mail addresses.

Those who register have access to the interactive features on the **BIC** website, and:

- The ability to guest blog;
- Add news and press releases;
- Submit comments;
- Participate in the **BIC Forum**; and
- Submit resources to the **BIC Blue Book**

The **BIC** welcomes the following to register on the **BIC** website:

- Those affected by an acquired brain injury (ABI), including survivors, caregivers, family and friends;
- Staff and volunteers of brain injury and disability nonprofit organizations;
- Professionals working directly with the ABI community;
- Those interested in learning more about ABI (students, employers, educators, etc.); and
- Those involved in preventing brain injury (safety advocates, law enforcement, etc.).

To register, go to “Login” and register.
